

Companies in the veterinary and animal feed sectors require qualified support for the development and approval of their products. KLIFOVET AG, part of the Argenta Group, is an internationally recognised provider of expert services in the veterinary medicine and animal feed sector based in Munich. We support our customers from the idea, through development, to approval and beyond. Service for our customers determines our actions. Founded in 1997, we are considered a global leader in animal health product development; Argenta and Klifovet have been awarded multiple times as the best service provider or the best contract research organisation in the animal health space internationally.

Like the animal health industry, Argenta including Klifovet is growing continuously.

To support our team we are currently seeking a:

Projectmanager Clinical Studies (m/f/d) – Full-time
