

Companies in the veterinary and animal feed sectors require qualified support for the development and approval of their products. KLIFOVET GmbH, part of the Argenta Group, is an internationally recognised provider of expert services in the veterinary medicine and animal feed sector based in Munich. We support our customers from the idea, through development, to approval and beyond. Service for our customers determines our actions. Founded in 1997, we are considered as a global leader in animal health product development; Argenta and Klifovet have been awarded multiple times as the best service provider or the best contract research organisation in the animal health space internationally.

Like the animal health industry, Argenta including Klifovet is growing continuously.

To support our team, we are currently seeking a:

Clinical Data Manager (m/f/x) – Full-time

Your tasks:

Planning and realization of study-specific setups for data entry in various EDC and database systems:

- Database design, creation of data entry masks and setup of plausibility checks
- Support of quality assurance in the validation and acceptance of EDC setups
- Supervision of the electronic recording of study data, user support
- Handling of query processes
- Data quality assurance
- Creation of data packs including data transfer
- Coordination of external data suppliers, data imports and exports
- Support of the preclinical and clinical studies departments in data monitoring

Your profile:

- Ideally, you have a degree in natural sciences and/or qualifications in the field of clinical data management
- Experience in dealing with MS Windows-based systems
- Relational database knowledge, ideally some coding and basic programming skills
- Basic scientific understanding
- Flexibility and ability to work in a team but also to be able to work structured and independently
- Strong written and verbal communication skills including good command of German and English
- Confident appearance as well as distinctive customer orientation
- Willingness to familiarize with new tasks, new areas of responsibility and knowledge

We offer you a detailed introduction to your field of work, independent, challenging and divers work, modern work equipment, family-friendly working hours, regular training and further education and a positive and collegial team in an appealing atmosphere in Munich.

Please send your complete application including salary expectations and a possible starting date to KLIFOVET GmbH, Elisabeth Freier, Geyerspergerstr. 27, 80689 München, jobs@klifovet.com.
