

Companies in the veterinary and animal feed sectors require qualified support for the development and approval of their products. KLIFOVET GmbH, part of the Argenta Group, is an internationally recognised provider of expert services in the veterinary medicine and animal feed sector based in Munich. We support our customers from the idea, through development, to approval and beyond. Service for our customers determines our actions. Founded in 1997, we are considered as a global leader in animal health product development; Argenta and Klifovet have been awarded multiple times as the best service provider or the best contract research organisation in the animal health space internationally.

Like the animal health industry, Argenta including Klifovet is growing continuously.

To support our team, we are currently looking for an:

Experienced Manager Regulatory Affairs (m/f/d)

full or part-time possible

Your role and responsibilities:

- You are responsible for the planning and implementation of regulatory projects aimed to obtain marketing authorisation for animal health products
- You evaluate documents relevant for approval
- You write dossiers and expert reports
- You develop and implement the best strategy to obtain marketing authorisations for different products incl. non-biological and biological veterinary medicinal products, vaccines and feed additives
- You act as contact point for authorities and have regular contact with experts and clients
- You will coordinate the submission of marketing authorisation dossiers to national, European and international authorities

Your profile:

- University degree in veterinary medicine, pharmacy or a comparable life-sciences education
- Professional experience in the field of regulatory affairs, product development or relevant other comparable professional experience in the feed, health or veterinary industry
- Project management skills
- Independent, structured and team-oriented way of working
- Proficiency in English, other language skills appreciated
- Excellent skills in scientific writing
- Willingness to travel for business (approx. 10% of working time)

We offer you a thorough onboarding into your responsibilities and an interesting field of activity that contributes to the availability of animal health products. You will work in an international team with modern equipment and benefit from a family-friendly working environment, options for continuous education and a very positive and cooperative team atmosphere.

Please send your complete application including salary expectations and a possible starting date to KLIFOVET GmbH, Elisabeth Freier, Geyerspergerstr. 27, 80689 Munich, Germany, jobs@klifovet.com.
